Restructure of Company Leadership Roles

This morning, Henry Dixon announced a restructure of the company and new leadership positions for two of the Datatrac Executive Team. The departments and work teams are now aligned under two specific roles filled by David Norman and Danny Barfield.

David Norman is now the Executive Vice President of Operations with responsibilities for Datatrac's Customer Care, Technical Operations and Accounting Groups.

Danny Barfield will now be the Executive Vice President of Business Development, with responsibilities for Development, Sales, Professional Services and New Business Direction.

Congratulations to David and Danny on their new expanded roles.
